Seattle Boat Show Celebrates 75th Anniversary

KIRKLAND, Wash. (January 2022) – The 2022 Seattle Boat Show indoor/outdoor event is cruising into town from February 4th through 12th. Boats will be on display inside Lumen Field Event Center (Icom located at Concourse 2212) and right on the water at Bell Harbor Marina. See our lineup of the latest and greatest marine radios, such as our newest VHF marine transceiver, the M510 fixed mount. With the M510 onboard, conveniently command and control wirelessly, all from your smart device.

Icom's M510 VHF transceiver is designed to bring communication to life. This radio is a powerhouse formidable enough for the commercial market yet refined for the recreational boater. At almost half the depth of the M506, installation options are wide open. The 3.5-inch LCD color display provides a wide viewing angle for supreme readability, even in low light with night mode. Front and back connection ports allow an additional wired station using a COMMANDMIC™. Further, connect up to three smart devices using the free RS-M500 iOS®/Android™ app. Add the optional CT-M500 interface box to gain NMEA2000™ connectivity and a two-way hailer/PA function.

This year's show marks Seattle Boat Show's 75th Anniversary and will feature 255 exhibitors plus 800 new and brokerage boats, along with the latest in marine technology. This year's in-person seminars will also be available online for three months post-show, allowing attendees to catch ones they missed or wish to revisit. See show website for more details.

At its heart, the Seattle Boat Show is a celebration of boating, which includes providing and being a place for friends to meet and share boating memories. Visit the historical photo display chronicling all of the show's moves before dropping anchor at Seahawks Stadium & Exhibition Center (now Lumen Field Event Center) in 2000.

AIR. LAND. SEA.

Icom is known worldwide for manufacturing the most impressive marine radios – handheld or fixed mount. And in a world where technology is ever-evolving, Icom continues to stand the test of time with leading-edge forward-thinking. Because of this, boaters the world over choose Icom for their legendary durability, quality, dependability, and ease of use.

BRING IT ON.
